EDUCATION

2018 – 2022
Bachelor of Engineering
Reva University Bangalore

2017 – 2018
Intermediate
MES Vidyasagar Bangalore

SKILLS

Java

Selenium

API Testing

Functional Testing

Validation Testing

TestNG

To secure a challenging position in a dynamic organization where I can utilize my technical skills, analytical mindset, and passion for problem-solving to contribute to the development and implementation of innovative software solutions.

Experience & Project

2022-08 – Current **QEA Programmer Analyst**

Cognizant Technology Solutions
- I have experience in Application Lifecycle Management (ALM) contributing to projects and process within this tool.
- Maintained existing software systems by identifying and correcting software defects.
- Performed regression and system-level testing to verify software quality prior to release.
- Updated documentation with project deviations to capture changes.
- I have some familiarity with API testing, demonstrating a basic understanding of the principles and process involved.

Project Experience

Travel Site Automation

Description-
    Travel Site Automation is a Java-based Selenium automation project designed to streamline testing for a travel website. The project includes automated scripts to navigate through the website, perform searches, and validate search results.

My Responsibilities –
1. Automate the entire travel website process using Java and Selenium.
2. Automating new test cases as and when new feature is added.
3. Utilization of TestNG and Maven to improvise the project.
